POWERING TODAY SUSTAINING TOMORROW

ONS Sustainable Energy Solutions is a forward-thinking renewable energy company committed to creating a cleaner, greener and energy-secure future for India.

We design, supply, install and maintain high-performance solar solutions for homes, businesses, industries and government organisations.

Our goal is simple – **empower people and organisations to generate their own clean energy, reduce costs and build a sustainable tomorrow.**

SOLAR LIGHTS

SOLAR WATER HEATERS

SOLAR PUMPS

EV CHARGERS

VISION

To be a trusted leader in renewable energy by delivering innovative, reliable and sustainable solar solutions that empower a greener and brighter tomorrow.

MISSION

- Provide high-quality solar solutions with integrity and transparency
- Use advanced technology for maximum customer benefit
- Promote clean energy for a sustainable environment
- Ensure customer satisfaction through committed service

OUR VALUES

- ✓ Integrity & Transparency
- ✓ Quality & Excellence
- ✓ Customer Commitment
- ✓ Innovation & Continuous Improvement
- ✓ Sustainability
- ✓ Safety & Responsibility

WHY GO SOLAR?

— Smart Choice. Lasting Impact. —

Solar energy is more than just a technology – it's a smart investment in a sustainable, independent and cost-free future.

Here's why thousands are making the switch to solar.

- 25+ YEAR SAVINGS**
 Enjoy 25+ years of clean energy and massive savings.
- ZERO ELECTRICITY BILL**
 Generate your own power and eliminate electricity bills.
- HIGH ROI**
 Attractive returns with faster payback and long-term financial gain.
- ENERGY INDEPENDENCE**
 Reduce reliance on the grid and protect yourself from rising electricity costs.
- ENVIRONMENT FRIENDLY**
 Reduce carbon footprint and contribute to a cleaner, greener planet.

YOUR INVESTMENT YOUR FREEDOM

Invest Once

Save Every Month Profit for 25+ Years

Switch to solar today and let the sun pay your electricity bill for decades.

APN SOLAR ADVANTAGE TO COMMERCIAL INSTALLATIONS

REDUCE YOUR POWER COST

Generate your own clean energy and reduce dependence on expensive grid power.

REDUCE PRODUCTION COST

Lower energy expenses lead to lower overall production cost.

INCREASE PROFIT

Save more on energy, produce more efficiently, and improve your bottom line.

EASY FINANCE FROM YOUR BANK

Avail attractive loans and schemes for solar projects under various government initiatives.

SAVING EVEN AFTER PAYING EMI

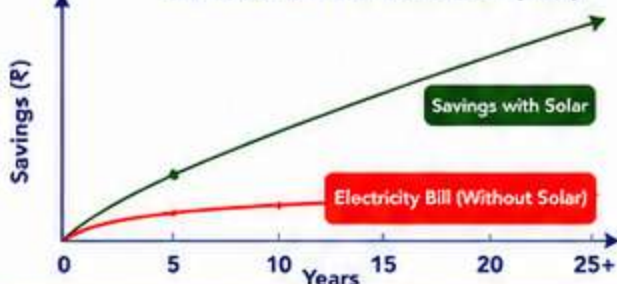

Your solar savings are higher than EMI – resulting in positive cash flow every month.

40% DEPRECIATION BENEFIT

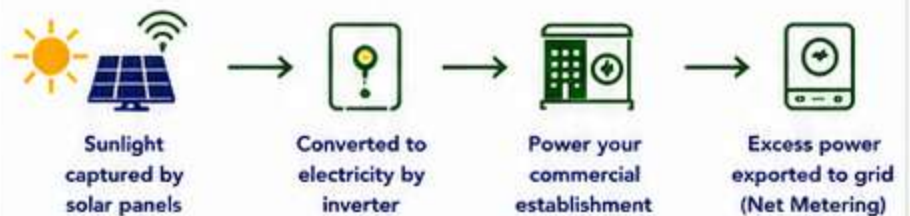

Claim 40% depreciation in the first year on your solar investment as per government norms.

RETURN ON INVESTMENT (ROI)

Lower bills. Higher savings. Brighter future.

ZERO ELECTRICITY BILL – HOW IT WORKS

Generate. Use. Export. Save.
That's the power of solar!

SOLAR SOLUTIONS FOR EVERY NEED

— ON-GRID | OFF-GRID | HYBRID SYSTEMS —

ON-GRID SOLAR SYSTEM

Connected to the grid. Save on electricity bills with net metering. No batteries required.

-  Works with grid power
-  Net Metering – Earn from excess power
-  Lower upfront cost
-  Ideal for urban areas with reliable grid
-  No backup during power cuts

OFF-GRID SOLAR SYSTEM

Completely independent of the grid. Energy stored in batteries for 24x7 use.

-  100% energy independence
-  Battery backup for 24x7 power
-  Ideal for remote areas
-  Higher upfront cost
-  Requires battery maintenance

HYBRID SOLAR SYSTEM

Best of both worlds. Use solar, store in batteries and use grid when needed.

-  Solar + Grid + Battery Backup
-  Uninterrupted power supply
-  Net Metering benefits
-  Energy savings + Backup
-  Higher upfront cost than On-Grid

QUICK COMPARISON

FEATURE	ON-GRID SYSTEM	OFF-GRID SYSTEM	HYBRID SYSTEM
 Grid Connection	Yes	No	Yes
 Battery Storage	No	Yes	Yes
 Power Backup	No (Only Grid)	Yes (100%)	Yes (During Outage)
 Net Metering	Yes	No	Yes
 Upfront Cost	Low	High	Medium
 Best Suited For	Homes, Shops, Offices with reliable grid	Remote Areas, Farms, Cottages, Island Areas	Homes, Businesses needing backup + savings
 Energy Independence	★☆☆☆☆	★★★★★	★★★★☆

WHICH SYSTEM IS SUITABLE FOR WHOM?

HOMES & APARTMENTS On-Grid System

Reduce electricity bills with net metering. Perfect for city homes.

SHOPS & OFFICES On-Grid / Hybrid System

Lower operating costs and ensure backup for critical operations.

FARMS & REMOTE AREAS Off-Grid System

Get reliable 24x7 power independent of the grid. Ideal for irrigation & rural needs.

INDUSTRIES & COMMERCIAL Hybrid System

Maximize savings, ensure uninterrupted operations and manage peak loads.

WE DESIGN THE RIGHT SOLAR SOLUTION
BASED ON YOUR NEEDS, BUDGET & LOCATION.

— DELIVERING EXCELLENCE , ALWAYS —

SOLAR TECHNOLOGIES

— Advanced Solutions. Maximum Performance. Long-Term Savings. —

TOPCon

Next-Gen High Efficiency

- Higher efficiency 22%+
- Better performance in low light
- Lower degradation & longer life
- More electricity from same space

TOPCon technology delivers superior performance and higher yield.

MONO PERC

Proven. Reliable. Efficient.

- High module efficiency
- Excellent low light performance
- Reduced resistive losses
- Long lasting & dependable

Mono PERC panels ensure reliable power and long-term savings.

BIFACIAL MODULES

More Power from Both Sides

- Generate power from front & back
- Up to 10-30% extra energy
- Better performance in reflective areas
- Lower LCOE more savings

Bifacial modules capture more sunlight and deliver more energy.

INVERTERS

Smart Conversions. Maximum Output.

- High efficiency & reliability
- Smart monitoring & diagnostics
- Grid compliant & safe
- Long life with low maintenance

High performance inverters convert solar power to usable electricity efficiently.

BATTERIES

Store Today. Use Anytime.

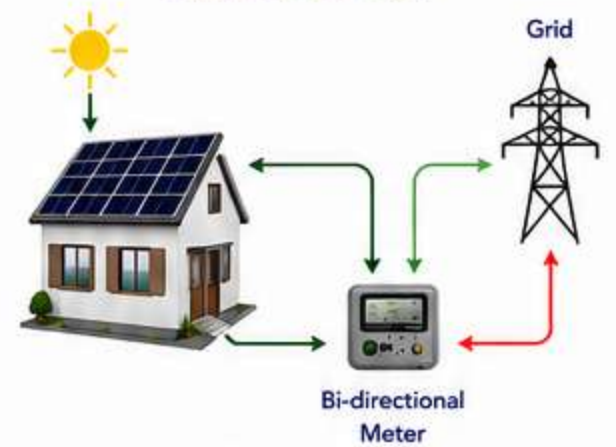

- Store excess solar energy
- Power backup during outages
- Long life & safe technology
- Smart energy management

Reliable battery solutions for backup, energy independence and savings.

NET METERING

Generate. Use. Save.

Export extra power to the grid and earn credits. Pay only for net usage!

WHY OUR TECHNOLOGIES STAND OUT

HIGH EFFICIENCY
More power generation per unit area

RELIABLE & DURABLE
Premium quality components for long life

FUTURE READY
Latest technologies for better performance

LOWER COST OF ENERGY
Maximize savings over the long term

WARRANTY ASSURED
Industry leading product & performance warranty

HOW NET METERING WORKS

1. Solar panels generate electricity

2. Power used in your premises

3. Excess power exported to the grid through bi-directional meter

4. You earn credits & pay only for net electricity consumed

BENEFITS OF NET METERING

- Reduces electricity bills significantly
- Earn credits for extra solar power
- No battery required
- Environment friendly
- Smart way to save more

CHOOSE THE RIGHT TECHNOLOGY.
CHOOSE LONG-TERM SAVINGS.

ONS provides cutting-edge solar solutions customized for your needs.

PM SURYA GHAR YOJANA

Power Your Home. Empower Your Future.

A GOVERNMENT INITIATIVE FOR A GREENER & SELF-RELIANT INDIA

GET UP TO
₹1.08 LAKH
GOVERNMENT SUBSIDY*

GOVERNMENT SUBSIDY FOR RESIDENTIAL CUSTOMERS

SYSTEM SIZE (kW)	SUBSIDY FROM		TOTAL SUBSIDY (UP TO)
	PM SURYA GHAR YOJANA	STATE SUBSIDY (DELHI)	
1 kW	₹30,000	₹10,000	₹40,000
2 kW	₹60,000	₹20,000	₹80,000
3 kW	₹78,000	₹30,000	₹1,08,000

Subsidy available only for Residential Customers | Subsidy capped at 3 KW

HURRY UP! SUBSIDY ENDING SOON!

Don't miss out on up to ₹1.08 LAKH Government Subsidy* under PM Surya Ghar Yojana. Act now and secure your savings before it's too late!

LIMITED TIME. MAXIMUM BENEFIT. SECURE YOUR FUTURE TODAY!

ELIGIBILITY

- Indian citizen who owns a house with a suitable rooftop.
- Existing electricity connection in the name of the applicant.
- Rooftop should be free from shading and suitable for solar installation.
- Not availing subsidy under any other solar scheme.
- For residential customers only.

INSTALLATION PROCESS

- Apply Online
Register on the National Portal for PM Surya Ghar Yojana.
- System Design & Approval
Custom system design and approval from DISCOM.
- Installation
Professional installation by ONS expert team.
- Inspection & Approval
DISCOM inspection and net meter installation.
- Subsidy Disbursal
Subsidy credited directly to your bank account.

ONS SUPPORT THROUGHOUT

- End-to-End Assistance from documentation to subsidy approval.
- Quality Installation by trained & certified team.
- Help in Online Registration and Net Metering.
- Complete Documentation support for faster approvals.
- Technical Site Survey by experienced engineers.
- Handholding till Subsidy Disbursal to your bank account.

OTHER BENEFITS OF SOLAR

- REDUCE ELECTRICITY BILLS**
Significantly lower or zero electricity bills.
- EARN EXTRA**
Sell surplus power to the grid and earn credits.
- NO BATTERY REQUIRED**
Grid-connected system. Hassle-free operation.
- ENVIRONMENT FRIENDLY**
Clean energy for a cleaner and greener tomorrow.
- SMART INVESTMENT**
High returns with long-term savings for 25+ years.
- RELIABLE & DURABLE**
High quality components with strong performance warranty.

HOW NET METERING WORKS

BENEFITS OF NET METERING

- Reduces electricity bills significantly
- Earn credits for extra solar power
- No battery required
- Environment friendly
- Smart way to save more

TAKE THE FIRST STEP TOWARDS ENERGY INDEPENDENCE WITH PM SURYA GHAR YOJANA.

ONS IS WITH YOU, AT EVERY STEP!
